THREE BIG FIRES ON SUNDAY KEEP LADDIES BUSY ALL DAY CONSUME MUCH PROPERTY

Two Houses Destroyed in Rowlandtown—Tom Leech's Residence is Damaged—Downtown Fire

Three fires within twelve hours kept Paducah firemen busy after 4 o'clock Sunday afternoon. Damage in two of the fires was slight, but the third entailed a loss of about \$1,200 partly covered by insurance. The fire department did excellent work saving property in Rowlandtown with probably the longest line of hose ever stretched in Paducah.

Fire in Debris.
Fire originating among dry goods boxes and debris back of the Palmer house, called out companies Nos. 1, 3 and 4 at 4:30 o'clock Sunday afternoon. Boys had mischievously set the boxes afire. The flames were easily extinguished before any property was reached.

The Leech Residence Visited.
A second fire at T. C. Leech's residence near Broadway on Fountain avenue, called company No. 3 out at 9 o'clock Sunday night. Sparks from a chimney set the roof afire, and it was necessary to set up several sections of ladders to reach the high roof, which stands three stories above the ground. The damage will amount to less than \$25.

Handle Brothers Lose Homes.
The third run was made to Atkins avenue, the last street in the city limits in Rowlandtown. Fire originating from an unknown cause was discovered at 1:30 this morning. It started in one of the two small frames owned and occupied by Randle Bros., colored contractors. The No. 3 company answered and found its 1,000 feet of hose too short. A second alarm brought the No. 4 real with additional hose, but the flames had spread rapidly and consumed both houses before a stream of water reached them. Captain Jack Slaughter worked hard and saved adjoining property. The loss will amount to about \$1,200, partly covered by insurance.

REPUBLICANS CAN SEE OPPORTUNITY TO CONTROL HOUSE

Louisville, Nov. 11.—The Republicans have a chance to organize the lower house of the legislature and they are straining every nerve to that end. M. H. Thatcher, who has been one of the principal managers of the recent campaign, is so fixed in the belief that the Republicans can control the house of representatives that he left the city yesterday for a swing in the state to see if he cannot make things a certainty on this line. It was stated at Republican headquarters last night that Mr. Thatcher said before he left that he was confident that the official count in one or two districts would show up to the advantage of the Republicans.

It is the belief that the aim of the Republicans is to file contests in dis- tricts which prove to be close on the official count, and it is believed by many that this is the object of Mr. Thatcher's trip out into the state. At the headquarters it could not be as- certained where Mr. Thatcher had gone. He will be absent from the city several days.

May Go After Mueller.

It was also rumored in Republican circles that Chris Mueller, who was the only Democrat elected from Louisville to a seat in the house of representatives, would not be allowed to take his seat. The official count shows that Mr. Mueller had been elected by a majority of 79 votes over his Republican opponent from the district comprising the Second and Third wards.

City physician Harry Williamson reached his side at 11 o'clock and saved him. Taylor was removed to the Riverside hospital. He worked at the cordage factory. It is said he wished to marry his stepdaughter, who charged him with threatening to kill her.

BLOODY AFFAIR IS FIERCE FIGHT ON THIRD STREET

Richard Yeltima and George Jones, young men, engaged in one of the bloodiest cutting affairs in several years Saturday night on Third street between Kentucky avenue and Broadway, and both were seriously cut. How the fight started no one knew, but before it had gotten well started both whipped out knives and began to slash.

Yeltima was cut in the face, the wound starting in forehead and extending below one eye. The second cut was through his upper lip. He cut Jones in the side, the knife penetrating the abdominal cavity but not making a fatal wound.

Yeltima was arrested and a charge of malicious cutting will be filed against him. A warrant has already been sworn out against Jones for malicious cutting but he is not under arrest.

Bidwell and his brother, Charles Bidwell were today held by the federal commissioner to await the grand jury's action in the alleged swindle that netted them nearly \$300,000. For a month the men have been advertising stock in the Bidwell Electric company, which controlled a motor which reverses naturally, without friction, generating heat and causing the friction to produce ice.

The game law will be out on the 19th and he will watch closely all fields. Poachers have been active of late but have kept their tracks well covered. The poachers known to Game Warden Dean are prominent men, and as a favor to them he will not give out names until after the prosecution and the true facts are known. They proclaim their innocence, alleging that they killed ducks and no quail.

FIRST REAL COLD WAVE OF SEASON VISITS COUNTRY

Northwest Visited by Blizzard and Snow Falls in Two States, While Gale is Raging on Great Lakes—Temperature Got no Higher Than 50 All Day Sunday.

FELL TO 20 THIS MORNING

Twenty-nine degrees above zero this morning with a clear sky and a heavy frost put the finishing touch on such vegetation as escaped former frosts, and made the ears and noses of early pedestrians tingle.

The cold wave commenced Saturday night, and gradually grew more intense throughout Sunday, 50 degrees being the highest point attained by the mercury in mid-day. Last night the cold settled down and made people feel snug by the fire.

The cold is general, particularly in the northwest.

School House Cold.

The first touch of real cold weather caught Washington school without any fire in the furnaces and with every room cold. The janitor failed to show up, and it was not known where he was until after school opened. He had left the city without informing Superintendent Carnagey or Principal Sugg and got lost at Fulton. Silas Kevill, who formerly acted as janitor, was secured, and by recess in the morning he had the furnaces going and the rooms comfortably heated.

To prevent pupils catching a cold and probably developing a serious illness, Superintendent Carnagey ordered Washington building dismissed shortly after school had taken up until this afternoon when the rooms could be heated.

Snow at St. Paul.

St. Paul, Nov. 11.—Light snow fell throughout Minnesota and the Dakotas Sunday.

Gale on Lake Superior.

CALEB POWERS TRIAL

Georgetown, Ky., Nov. 11.—(Special.)—The trial of Caleb Powers was called this morning with Judge Morrison on the bench. Powers is anxious for a trial. Many witnesses are present. On request of the commonwealth the court granted a recess until tomorrow.

COULDN'T SEE SHOW

London, Nov. 11.—Kaiser Wilhelm landed at Portsmouth in a lug so dense that the gorgeous pageant arranged could not be seen. The Kaiser could hardly see the prince of Wales, who was there to welcome him. The crowd couldn't see royally five feet away and did not know for whom to cheer. The arrival, which should have been at 8, was postponed until 2 this afternoon, on account of the fog.

CUT IN CAR SHOPS

Saturday afternoon an order was received from Chicago authorizing a cut in the car department of the Paducah Illinois Central shops of 20 men. They were taken from the extra gangs. This leaves the usual force working. The yards are well filled with had order cars, and the regular winter business will call for all rolling stock available.

JOE PURCHASE TIPPED FOR OFFICE OF DEPUTY JAILER WITH JAILER SAM BEADLES

DIXIE KNITTING MILLS BOUGHT IN. MAY BE OPERATED

At the sale of the property, machinery and stock of the Dixie Knitting mills this morning, P. P. Toof, manager of the Cohanokus mills, purchased the real estate and machinery of the concern, \$8,300 being paid for the real estate, and \$20,000 for the machinery. The stock and raw material of the concern were bought by George C. Wallace for \$1,650. The concern was involved for \$50,000. Mr. Toof, it is said, purchased the property to protect bond holders; but he expects parties here in a week or ten days to inspect the property, who will probably reorganize the company with local and foreign capital and start the plant again at its full capacity.

DIDN'T GET FAR BUT COMMITTED TWO BAD CRIMES

Held on two charges, one a felony, Arthur Breedlow, colored, lies in jail to review details of one of the quickest robberies, arrests and convictions on record. Breedlow was quick, but Detective T. J. Moore was quicker. Breedlow stood in front of Frank's clothing store, Second street and Broadway, Saturday night wistfully viewing a pair of shoes hanging outside. He grabbed the shoes and ran to Second street and Kentucky avenue. Diving into Marconis's saloon he offered the shoes for sale, and received \$1. Just as he was putting the money in his trousers' pocket Detective Moore ran in and arrested him. Moore had passed Frank's store just after the theft and traced his man easily. For stealing the shoes the negro was held over for petit larceny, and for selling them as his own property he was held for obtaining money by false pretenses.

EARTHQUAKE MAY BE RESPONSIBLE FOR 20,000 DEAD

St. Petersburg, Nov. 11.—Twenty thousand may fall short of the total killed in the recent Russian-Turkish earthquake. Official reports show 14,000 dead have been located but the territory is so vast it will be weeks before the full number is known. In Karatagh 4,000 were killed and many other towns were destroyed.

Mahoney City, Nov. 11.—Imprisoned behind tons of slush and dirt, Michael McCabe is a prisoner in one of the workings of Draper Colliery alive, but doomed to death. Sale, 36 years old, died Sunday night at 9:30 o'clock of a complication of diseases at the residence of his sister, Mrs. Clyde Hubbard, at 912 Jefferson street, after an illness of four months. He became ill in Cadiz and was brought here two weeks ago, when his case was considered hopeless. Mr. Sale was born in Calloway county, and was the son of Mr. and Mrs. M. G. Sale, of 408 South Fifth street. He was married and for years was foreman of the Rehkopf Saddlery and Harness company here. Of late he had been making his home in Cadiz. OUR OLLIE TO SPEAK

Washington, Nov. 11.—Mayor Tom Johnson, John Sharp Williams and Representative Ollie James, of Kentucky, are three of the Democrats selected for speeches at the Bryan \$3 dinner to be held here November 26. Mr. Bryan will make the principal speech of the evening, and his close friends say they expect him to declare formally his willingness to run again. The toast to which Representative James will respond has not yet been announced by the committee. "My Old Kentucky Home" at first suggested itself, but in view of the happenings there early last week several members of the committee think a more Democratic toast might be spoken to. Mr. James is expected here on the afternoon of the 16th or 18th to confer with the committee.

Wise ones are Speculating on Probable Changes in City Hall After January 1

Mayor Yeiser Will Name Two Library Trustees and Park Commissioner Next Month.

Speculation on changes at the city hall this winter still interest the political wise and near wise.

Mayor Yeiser will have the first chance to dispose of offices, when the terms of E. J. Paxton, as park commissioner, and Mrs. A. R. Meyers and Mrs. L. M. Klebe, of the library board, expire next month. It is certain that both the ladies will be returned by the mayor.

The general council next names the city physician, license inspector, weigher, market master and sewer inspector.

In January Mayor-elect James P. Smith will name his city solicitor, and in February he will have the three appointments to the board of public works to make. The term of Mr. Jesse Gilbert, as police and fire commissioner, will expire in the spring. It is probable by that time that the police and fire department situations will be well on toward settlement. Chief Wood is anxious to retain his position under the new administration.

In January, too, the city jailer-elect, Samuel Beadles, will name his deputy, and although nothing authoritative has been said, it is tipped that Joe Purchase, the present efficient deputy, will be retained under the new administration.

Certificates of election are being issued today, the board having signed them all up Saturday.

The short term aldermanic certificate will be issued to W. T. Miller, and the short term of the council falls to T. H. Ford, of the Fifth ward. They will qualify immediately and take their seats, as they will fill vacancies to which appointments were made by Mayor Yeiser until the election.

MRS. BRADLEY'S CASE

Washington, Nov. 11.—After the witness list in the case of Mrs. Anna M. Bradley, charged with the murder of former Senator Arthur Brown, was read, Justice Stafford adjourned court until Wednesday morning on account of the death of Justice McComas, of the court of appeals.

BURGLARS GET NOTHING

When the offices of Friedmann, Keiser & company, wholesale whiskey house, Second and Jefferson streets, were opened this morning confusion or the worst sort imaginable met the eyes of the clerks. The offices had been burglarized, but fortunately nothing was taken. Indications point to the theory that only money was wanted, and the thieves were unsuccessful. Detective Will Baker was detailed on the job. He found entrance had been effected through a rear door by forcing the lock. The thieves had begun at the rear and worked up, entering every private office.

THE REASON

Why W. B. McPherson Continues to Recommend Vinol.

First: Because it is not a patent medicine and it contains besides tonic iron all of the medicinal curative elements of cod liver oil actually taken from fresh cods' livers, but without a drop of oil to nauseate and upset the stomach and retard its work; therefore, wherever old-fashioned cod liver oil or emulsions will do good, Vinol will do far more good.

Second: Because Vinol acts first upon the stomach, creates a healthy appetite, strengthens and tones up the digestive organs, purifies and enriches the blood, and, in a natural manner, restores health and strength.

Third: Because Vinol contains no injurious drugs to react upon the system; every ingredient being named on the label, a patient knows exactly what he is taking.

Fourth: Because we never sold anything in our store that gave such universal satisfaction for old people, weak, sickly women and children, nursing mothers, and to build up the system after a severe sickness, and for relieving hacking coughs, chronic colds, bronchitis and all throat and lung troubles.

Try Vinol on our guarantee, W. B. McPherson, Druggist, Paducah, Ky. English work in the schools :aoQ

much. Every character was strong and the company whose success in Charlottesville has been far above the ordinary, will ever be received in this city with a hearty welcome.

"Strongheart."

"Strongheart," the powerful play of college life, which Henry B. Harris will present here next Friday with Edgar Selwyn as the college-bred Indian, has had three seasons of exceptional success throughout America and scored a decided artistic success when it was offered in London last summer at the Aldwych theater. Mr. Harris has given Mr. Selwyn the benefit of a first-class supporting company and has provided a pretentious production. The scenes are laid at Columbia college, New York, and are redolent of the life of the college man.

Waiting for Mr. Frohman.

"When I was a very young girl," said Miss Louise Closser, the actress, "I had a wild desire to go upon the stage, so I left school in Boston, came to New York, and went to Charles Frohman's office on Broadway.

"Is Mr. Frohman in," I asked of the office boy.

"No, he is not," was the reply.

"Well, I thought, 'I'll wait until he comes.'"

"The boy became absorbed in the book he was reading and apparently was quite unconscious of my presence.

"Fifteen minutes passed; a half hour passed, and I grew weary of waiting. But I thought of the long distance I had come and at the same time recalled an old axiom I had once learned: 'Reward comes through constancy of purpose.' I

repeated this again and again, until an hour and a half slowly dragged itself out. Finally I could endure the waiting no longer. With as much courage as I could command I addressed the office boy a second time.

"Will you kindly tell me when Mr. Frohman will be in?"

"In six weeks," answered the boy. "He's gone to Europe."

"A few seasons ago," concluded Miss Closser, "when I was a member of Arnold Daly's 'Candida' company, I one day related to him my first experience when calling upon a manager. When I finished telling the story, Mr. Daly said:

"How long ago was that?"

"Twelve years ago," I replied.

"Twelve years ago," mused Mr. Daly. "Yes, I remember, I was that office boy."—Success.

PADUCAH HIGH SCHOOL BOYS
RETURN IN DISGUST.

Outplayed Local Team, but Latter
Would Not Abide By Decision
of the Official.

"Spending about raw deals," exclaimed a member of Paducah High school football team, "we got one at Mayfield. We went through the lines four abreast and mopped up with the home boys. In the last half when we had the score 5 to 0 in our favor, a fumble by one of the Mayfield boys was picked up by a Mayfield substitute, who made a touchdown. The substitute was not in the game. We played all around the boys, but they tried to take the game from us by fair or foul means."

The Nashville American in writing up a football game between Battle Ground Academy and the Columbia Military academy at Franklin, Tenn. Saturday gives Salem Cope, a Paducah boy, credit for doing some star playing. It also published a photograph of the victorious team on which young Cope played.

The young man last year played on the Paducah High school football team and made a record. He is now attending the Battle Ground academy and plays quarter back. The Battle Ground boys defeated the Columbia team by a score of 7 to 0. Young Cope is the son of Mr. and Mrs. M. G. Cope, of Fourteenth and Broadway.

"Mud Hens" Go to Chat. The vernal story that Toledo will practice in Paducah is early set at rest by the following Chattanooga dispatch:

"Manager Bill Armour, of the Toledo 'Mud Hens,' (American association), who has been in Chattanooga for several days, closed a contract this week by which his team will train here next spring, and will play exhibition games with the Boston, Detroit, (pennant winners), and Cleveland American league teams, and probably the Chicago world's champions of the National league and the Cincinnati and New York teams of the same circuit. The Toledo team will arrive here March 15, and remain until April 4, or a period of almost three weeks.

Incidentally.

In a certain school of Washington there was one lad who would persist in saying "have went."

One day the teacher "kept him in," saying:

"While I am out of the room you may write 'have done' fifty times."

When the pedagogue returned he found that the boy had dutifully performed the task, having written "have done" fifty times. On the other side of the paper, however, was this message from the absent one:

"I have went."

ATTEMPTED ESCAPE

OF PRISONERS OF CITY JAIL FRUSTRATED.

Prisoners Cut Hole in Brick Wall Leading From Cells Into the Main Corridor.

An attempted jail delivery was discovered by Lieutenant Tom Potter and Patrol Driver Thad Terrell Saturday night. Mike Broyles, alias "Arkansas Red," and other prisoners had cut a hole in the brick wall of the city hall leading from the cells to the corridor, but had not quite got it large enough to permit passage of their bodies when discovered.

An iron bar was used in the work, and when discovered the men were working with feverish haste and the noise attracted attention of the two policemen.

Broyles and other prisoners were afterwards locked in negro cells to prevent a repetition of the attempt. Broyles is in jail for shooting in sudden heat and passion at R. Ross. Prisoners had twisted the lock on the cell door so badly that Lieutenant Potter had to send for Charles Pisk, the locksmith, before he could unlock it. Tools used in the attempt to break jail were pitched out of the cell window.

Daily Thought.

Let us be content to do little, if
God sets us at little tasks.—Charles
Kingsley.A TWENTIETH CENTURY HERO-
INE.Stenographers, and especially pretty
stenographers—and, again, we be-
lieve there is no other kind—have
been the subject of much frivolous
comment. Have served their due sea-
son as the national joke in conjunc-
tion with the jealous wife, and have
taken their place in the commercial
and industrial world unsung to heroic
tragedy, until one solitary fearless
woman among all the rest, shocks the
public mind by her breach of trust,
and turns attention to the important
and confidential relations stenograph-
ers in general bear to the particular
world, which could not move so rap-
idly without them.When Attorney General Sling's sten-
ographer in Chicago was arrested for
betraying government secrets in
connection with the Walsh case, we
suddenly remembered that a vast
army of discreet young women carry
in their memories the secrets of
statesmen, judges, high church
prelates, lawyers, confidential agents
and great business men. It is safe
to assert that there is no great un-
dertaking today that it has not let
a woman into the secret. And yet,
we have been wont to say that a woman
cannot be trusted. These stenog-
raphers take down on paper the
most sacred transactions of business
and the professions every day, and
bear away from their daily tasks
information that they could
sell for thousands of dollars, and
yet, but one has violated her trust.Perhaps, if we knew how these
handsome, alert, smartly gowned
young women have schooled them-
selves to present a calm business at-
titude that wards off the advances of
would-be familiar, have learned how
to combine a woman's gentle arts
with a man's direct methods, without
losing any of the charm of the one
or the efficacy of the other; and have
accepted the confidential trust of
their employers in the spirit of fidelity
that distinguishes their sex, we
might better appreciate how they
have made a place for themselves in
the world of business, and give them
credit for possessing modern day vir-
tues that are peculiar and wonderful.While we are complaining that the
"off-scourings" of Europe are coming
to our shores, Italy cries that her
young men, her best blood, are de-
serting the mother country for the
new, Sweden has a commission en-
deavouring to induce Swedes to re-
turn home, and Japan will further
our efforts to keep the sons of Japan
in Asia. Wonder who is getting the
worst of this immigration business.King Edward got a diamond worth
two millions and a half for his birth-
day present, and the farmers of
South Africa paid for it in taxation.
Hope Ed doesn't "soak it.""We tried to make the best we
could out of a bad bargain, but we
are free to confess now that some of
the nominees on the Democratic
were about the commonestthat could have been selected. It is
perhaps better for them that their
unfitness was not exposed," says the
Kentucky State Journal. If the
State Journal knew of their unfitness
before the election, when it was pro-
claiming their worth, this is a con-
fession that is better for the soul
than the reputation.A SERIOUS ACCUSATION.
In the course of an editorial on
the "One Man Power" which the
Courier-Journal said controlled all
things Democratic in Kentucky and
brought the party low, that well in-
formed newspaper relates:If all the circumstances enter-
ing into the shake-up given the
Democratic organization of Lou-
ville by the Democratic organ-
ization of Frankfort could be
plainly set forth the people
would draw back with amaze-
ment and horror.The strange thing about it,
however, was not so much its
discreditable origin and purpose
as its lack of wisdom and fore-
cast in politicians claiming to be
practical and recognizing no law
except their own advantage.
Conceding that it was in itself
a good thing for good govern-
ment, how could the self-aggrand-
izing men behind it have imag-
ined that it would insure to their
profit? It gave the Republicans
their chance and they were
quick to improve it.If this rather vague charge may be
interpreted to mean that the court
of appeals was manipulated by the
state machine and reversed the Jeffer-
son county circuit court, ousting
the local Democratic official-elect in
the 1905 election cases, then, indeed,
is the reflection a serious one, and
well founded are the charges that
democracy in Kentucky has sub-
verted the courts of justice to the
purposes of politics and set crime
upon the bench. When our courts
become mere tools of machine pol-
itics and we may no longer look
for justice, there is something so ro-
tten somewhere that nothing can re-
deem the body politic but the total
eradication of the source of it. If
the Courier-Journal's charge is cor-
rect, then Democracy in Kentucky is
a thing infamous, and those men who
have voted knowingly for the perpe-
tration of this thing are tainted,
and the newspapers that have sus-
tained relations to it are unfaithful
to their constituency.If these things are so, then we say
that Kentucky has been redeemed;
and that Republicans must overthrow
justice in the courts, and drive cor-
ruption from the body politic.We had thought most newspapers
have local feuds that are entertain-
ing to their readers, but Columbus,
O., seems to carry off the palm for
what is known as "personal journal-
ism." It seems that one, Mr. Phil-
brick, now manager of the Ohio State
Journal, declared in the heat of the campaign
that the Press-Post (Democratic) is
owned by the same interests that
control the Ohio State Journal and
Evening Dispatch (Republican.)The press-post denies the allegation
and comes back in this wise:
"This is as well known to C. C.
Philbrick, present manager of the
Ohio Sun, as it is to Mr. Harrison or
to any person connected with the
Press-Post in any capacity. Mr.
Philbrick knows this because he was
formerly the manager, or business-
manager of the Press-Post at the time
this newspaper property was ac-
quired by Mr. Harrison."As long as he remained in the
employ of Mr. Harrison it was well
known to Mr. Philbrick who owned
the Press-Post.
"Mr. Philbrick also knows that it
was Mr. Harrison who fired him at
11:30 a. m. Jan. 19, 1906, for rea-
sons well known to Mr. Philbrick;
and for Mr. Philbrick's benefit, and
all others whom it may concern, it
is stated here and now that the same
W. P. Harrison who fired Mr. Phil-
brick is the same Mr. Harrison who
has owned continuously ever since
and still owns the Press-Post."LEAVES WAGON AND
LIES DOWN TO DIE.Hickman, Ky., Nov. 11.—This
afternoon while coming to town Robert
Marr attempted to jump from his
wagon to fix the harness, and, put-
ting his hands on the side of the wagon
to throw himself forward, lost his
balance and fell back under the
wheels of the wagon, heavily loaded
with corn. The wagon passed over
his body just above the waist. He
crawled up into the wagon and
drove on about a mile, then got out
of the wagon, laid down on the road-
side and was dead in three minutes.
A blood vessel had been broken and
he bled to death internally. He was
nineten years of age.

REPORT IS TRUE.

Anna Gould Is Not Married to Prince
De Sagan—He Merely Cuddles.Paris, Nov. 11.—Every reason to
believe the report that Mme. Anna
Gould, recently divorced from Count
Bonni De Casteline, was married to
Prince Helle De Sagan is untrue. A
representative of the Associated
Press went today to Chateau Du
Marais, Mme. Gould's country home.
He was told she was ill, and could see
no one. Mme. Gould has been enter-
taining at Chateau some weeks. Fri-
day she gave a hunt to a large party.
Prince De Sagan has been calling
there about once every ten days.Is it not sheer madness to live

BLINDFOLDED

A Mystery Story
of San Francisco

BY

EARLE ASHLEY WALCOTT

(Continued from last issue.)

They named a heavy margin, and
the sum total took my heart into my
mouth. How large a balance I could
draw against I had not the faintest
idea. Possibly this was a trap to
throw me into jail as a common
swindler attempting to pass worthless
checks. But there was no time to
hesitate. I drew a check for the
amount, signed Henry Wilton's name
and tossed it over to Bockstein."All right," said the senior partner.
"Just talk it over with Milder Eppner.
He goes on der floor."I knew well enough what was
wanted. My financial standing was
to be tested by the head of the firm,
while the junior partner kept me
amused.Eppner was quick to take my ideas.
A few words of explanation and he
understood perfectly what I wanted."You have not bought before?" It
was an interrogation, not an assertion."Oh, yes," I said carelessly, "but not
through you, I believe.""No, no, I think not. I should have
remembered you."I thought this might be a favorable
opportunity to glean a little infor-
mation of what was going on in the mar-
ket."Are there any good deals in pros-
pect?" I ventured.I could see in the blue-black depths
of his eyes that an unfavorable opin-
ion he had conceived of my judgment
was deepened by this question. There
was doubtless in it the flavor of the
amateur."We never advise our customers,"
was the highkeyed reply."Certainly not," I replied. "I don't
want advice—merely to know what is
going on.""Excuse me, but I never gossip. It
is a rule I make.""It might interfere with your oppor-
tunities to pick up a good bargain
now and then," I suggested, as the
blue-black man seemed at a loss for
words."We never invest in stocks," was
the curt reply."Excellent idea," said I, "for those
who know too much or too little."Eppner failed to smile, and could
think of nothing to say. I was a little
abashed, notwithstanding the tone of
haughty indifference I took. I began
to feel very young before this ma-
chine-like impersonation of the mar-
ket.Bockstein relieved the embarrass-
ment of the situation by coming in out
of breath, with a brave pretense of
having been merely consulting a cus-
tomer in the next room."You had explained to Milder Epp-
ner?" he inquired. "Den all is done.
Here is a card to der Board Room. If

myself outside the office, with Bock-
stein's back waddling toward the
private room where the partners were
to have their last consultation before
going to the Board.My check had been honored, then,
and Bockstein had assured himself of

anxiety, I swelled with the pride of a

"Back to Nature."

If you have been reading my ad-
vertisements on Osteopathy, and are
not yet satisfied that it will do all I
claim, I should like to have you call
at my office some time just to make
a personal investigation.In the short time that I have been
here I have had the pleasure of treat-
ing some of the most prominent peo-
ple of the city, for one thing and no-
other, and I have yet to find a patient
who was dissatisfied.Every day but adds, too, to the
number of people who are finding
that the Osteopathic treatment is all
that we claim for it. Of course in
some instances relief or cures are
quicker than in others, as is but
natural.If you are suffering from any form
of nervousness, liver, bowel, stomach
or kidney troubles, of asthma, chronic
headaches, neuralgia, rheumatism,
lumbago or general debility, don't
wait too long before doing something
for it, but come to see me and let
me make a diagnosis of the case and
tell you frankly what Osteopathy will
do for you.Osteopathy is not a cure all, no;
will it cure in a night; there is noth-
ing occult about it,—just a scientific,
rational, back to nature treatment
that is doing much for suffering hu-
manity.

STUDENTS TO HOLD
TAX CONFERENCEIn response to a call in August by
Gov. nor Harris of Ohio, there will
be held in Columbus, Ohio, November
12, a national conference of the Na-
tional Tax Association. Delegates
have been appointed to this meeting
by the governors of all the states, and
it will, in addition be attended by
many tax experts from all over the
country. The discussion will take a
wide range, covering every phase of
the question of taxation.Such a gathering as that which is to
be held in Columbus will result in
disseminating a great deal of infor-
mation on the subject of methods of
taxation and is bound to stimulate
still further the interest in this re-
form. Governor Beckham has ap-
pointed three gentlemen to represent
the state of Kentucky. It is very much
to be hoped that they will attend, as
Kentucky has as great an interest as
any other state in this question and
very much greater interest than some
other states that have made more
progress than we have toward a bet-
ter tax system.

The Proposed Reforms.

The purpose of the conference are
thus announced:
To secure an authoritative and an
exhaustive discussion of the subject
of state and local taxation in all of its
details.To produce a volume of proceedings
containing the best thought of those
who, by reason of their special educa-
tional training and practical experi-
ence, are qualified to speak with au-
thority upon the special branch of the
subject they may elect to discuss.To furnish to the members of the
legislatures of the several states a
concise, up-to-date statement of the
economic and business principles that
should be applied in state and local
tax legislation, to be used as a guide
for their action when considering pro-
posals to improve the tax laws of their
respective states and in the adminis-
tration of the same.By this means to secure the applica-
tion of correct economic and business
principles in all tax legislation, and
thus develop a high degree of uniform-
ity in the tax laws of the several
states.By securing uniformity in state tax
laws, to eliminate the evil of changes
in legal residence and in the location
of business undertakings induced by
differences in state tax laws, and to
create conditions of high value in aid
of the effective and economical man-
agement of the financial affairs of all
state and local governmentsCOURT INSTRUCTED
FOR THE DEFENDANT.On peremptory instructions the
jury found for the defendant in the
case of Minnie Cunningham against
the Ayer & Lord Tie company. Mrs.
Cunningham is the widow of Daniel
Cunningham, who was drowned off
the towboat Margaret last summer.
Cunningham was a brick mason and
had been employed to repair furna-
ces on the boat. The Margaret was
to have been inspected on the after-
noon Cunningham was drowned, and
Captain H. Baker, superintendent of
floating stock of the Ayer & Lord
Tie company, had sent for him to
finish the job. Cunningham provedto be drunk, but was not found and
another black man was employed
later Cunningham returned and
was across the river. He was
off the boat, his widow claims, and
for employing the man while drunk
she alleges that the defendant is re-
sponsible for his death. She asked
for \$2,000 damages.Falling Off in Cotton.
Washington, Nov. 11.—The census
bureau today issued its bulletin show-
ing the total cotton crop of this year's
growth planned up to November 1 to
be 6,167,600 bales, as compared with
6,306,295 bales for 1906.

RIVER NEWS

Although the rivers have risen to
a fair boating stage, river men are
now facing another trouble in the
shape of stringency in the money mar-
ket and receipts and shipments are
lighter than for a year. The packet
in and out today had little to do and
the dock hands were correspondingly
happy.The J. H. Richardson, which has
been discontinued in the Paducah and
Cairo trade, left this morning for
Clarksville, Tenn., with the wharf
boat of that place, which has been
employed at the marine ways. She
will return Wednesday and enter her
regular trade in the Cumberland
river, the business along that stream
being sufficient to maintain regular
trips.The stage this morning was 8.5, a
rise of 0.7 since yesterday.The H. W. Huttoff was in from
Evansville this morning, leaving at 8
o'clock on her return trip.The Clyde is due in from the Ten-
nessee river tonight.The Bob Dudley left yesterday for
her regular trip in the upper Cum-
berland river trade. She has been
laid up here two weeks on account of
the low water.The A. D. Allen, which has been
rebuilt at the dry docks, left yester-
day for Memphis, where she will be
used in the Arkansas river trade.
Captain H. Berryman is piloting her
down the Mississippi.The Jim Duffy, Jr., the Inverness
and the Henrietta, towboats used in
the trade, were all in from the
Tennessee river Saturday and were
receiving supplies this morning pre-
paratory for the return trip.

THE DE BARNA SUIT

AT LAY'S TOMORROW.

Not to be taken as the new mid-
winter suit which is now being re-
ceived at Lay's, for they embody the
newest and most swag-
ger cut and the latest colorings.
There are long coats and short coats
in old rose and Popovergreen, blue,
and two shades which are to be most
popular for midwinter and spring
wear.Having one of these suits shows
good taste and good sense, too, for
the winter, but not a bad idea to make
them just right for spring, as well as
for winter.One of the greatest changes in
fashion since the short-skirted fash-
ion of the early 1900s is the new
style of suit which is as well as being
and affects the way a woman
dresses. There are many fashions in the
city which we have promised to call
up by phone when these suits ar-
rived here, listing that we have sent
the list on which their names were
written, we use this means of notify-
ing you that we have the suit you
desire.Today our stock of suits reaches a
climax and tomorrow the line will be
ready for your inspection. Whether
you have bought your suit or not,
we gladly welcome you to this feast
of good things.The price on these suits ranges
from \$12.50 to \$25.00. The styles range
from the most modest to the style
that are worn by the most discerning
in the great eastern fashion centers.

Of Interest To Women:

To such women as are not seriously out of health, but who have exacting duties to perform, either in the way of household cares or in social duties and functions, which seriously tax their strength, as well as nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nerve. By its timely use, much nervous sickness and suffering may be avoided. The operating table and the surgeon's knife, would be relieved of many a woman's anxiety, were it not for this good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Near in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a medicine of known composition, a full list of all its ingredients being printed, in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol. In its make-up, in this connection, it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended. A little look of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. L. W. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

TWO OF BROWNLOW'S MEN CUT OUT IN TENNESSEE.

"Hoh" Sharp, of Chattanooga, Gets Collectorship With Nashville Office.

Washington, Nov. 11.—As a result of the wave of prohibition which is sweeping through the Southern states it was announced today at the treasury department that the two internal revenue collecting districts of Tennessee, the Second and Fifth, have been consolidated, by executive order. The headquarters of the new district will be at Nashville. Robert S. Sharp, of Chattanooga, has been appointed collector, and he has notified Commissioner of Revenue Capers that he has offered the position of Chief Deputy Collector to Collector Butler, of the Second district. Mr. Caldwell, collector of the Fifth district, has been commissioned a revenue agent.

In the ninety-six counties in Tennessee there are only forty-nine grain distilleries, thirty-six tobacco factories, four breweries and 104 liquor dealers, paying special taxes, excepting those at Memphis, Nashville, Chattanooga and LaFollette, the only cities where intoxicants can be purchased in the state.

Concerning Gray Days.

It's getting time to write about a gray day.
So here we go.
A gray day is in contrast to a May day.
As you know.

But if you really wish to see a gray day
With nary sun,
Pick out the day you'd figured as a gray day.
Which wasn't one.

Weak Heart Action

There are certain nerves that control the action of the heart. When they become weak, the heart action is impaired. Short breath, pain around heart, choking sensation, palpitation, fluttering, feeble or rapid pulse, and other distressing symptoms follow. Dr. Miles Heart Cure is a medicine especially adapted to the needs of these nerves and the muscular structure of the heart itself. It is a strengthening tonic that brings speedy relief. Try it.

"For years I suffered with what I thought was stomach trouble, when the doctors told me I had heart trouble. I had tried many remedies, when the Dr. Miles' Heart Cure came into my hands, and I concluded to try it. Miles' Heart Cure. I have taken three bottles, and now I am not suffering at all. I am cured and this medicine did it. I write this in the hope that it will attract the attention of others who suffer as I did."

P. H. S. Loses.
After a hard-fought game, in which both teams scored a touchdown, the High school team quit the field, because on a punt the Mayfield team

contended one of their players caught the ball fair and the High School boys contended he did not, and this was upheld by the referee, Felix St. John. The Mayfield boys would not take this decision and so the Paducah High school boys left the field, thereby forfeiting the game to the Mayfield team. Most of the Mayfield boys acted well, but some were rowdy after the game some of the Mayfield boys went to the hotel where the High school boys were staying and apologized to the boys.

The Splendid New Serial Story

Satan Sanderson

Satan Sanderson is the true embodiment of the requisites that make a really great story. It gives the reader a look into a little world of action where all of the emotions that make or mar life—and lives—are set in swift, exciting play—one against the other. Incident follows incident with quick succession, and a vivid panorama of intrigue, mystery, love and strange adventure kindles the interest to the fusing point. Written in a charming style, brilliant in coloring, picturesque in background, faithful in characterization and intensely dramatic, with stirring climax, Satan Sanderson is by all odds the best story of the year.

EUROPE MUST PAY IN YELLOW GOLD

For Every Bale of Cotton and Car of Wheat Exported

Another Week Dawns With Conditions Much Clearer and Situation Even Easier.

ONLY A DOZEN SUSPENSIONS.

New York, Nov. 11.—The most eventful week in the financial history of the present generation closed Saturday with conditions much clearer than the week before, but with some clouds still hanging over the horizon. The bank statement yesterday changed the situation. While it showed a nominal decrease in the required reserves of \$13,085,800, more than two-thirds of this decrease was due to reserve requirements caused by an increase in deposits because of the taking over of loans from trust companies by banks. Moreover, the actual cash loss of \$4,313,000 was due to the system of averaging accounts for the entire week, including several days before the arrival of new gold. Unless the demands from the country are very heavy, the arrival of additional gold will more than offset the loss of cash last week and make a creditable showing for the reserves next Saturday.

Europe Protects Herself.

The restoration of comparative security in New York was obtained only by the demands of the money markets of Europe which created a tension not experienced since the floor war. The Bank of England raised its discount rate to 7 per cent, a rate which has not been fixed since 1873. The Bank of France raised its rate to 4 per cent, the Bank of Belgium to 6 per cent, the Bank of Germany fixed the usual rate of 7 1/2 per cent.

It is not surprising that these precautions should be taken to protect European bank reserves, in view of the fact that nearly \$50,000,000 in gold has been engaged by American banking institutions within two weeks. The demand for gold from Europe came at a favorable time in some respects for the outward movement of American products of which the leading ones are cotton and wheat. The fact that European banks are declined during the summer to accept American finance bills, because they already scented a storm, made the demand upon them more sudden than would have been the case if American bankers had found it necessary to buy cotton and grain bills to cover previous borrowings. Under the actual conditions England must pay substantially in gold for the balance of exported products which are

DuBARRY SUITS

Proclaim the Style for Mid-Winter and Spring

Suits good enough for America's best dressers.

Levy's
PADUCAH

Styles different from any shown by other stores

NOTABLE indeed are the new mid-winter suits which we are constantly receiving now, for they embody the newest and most swagger cut and the latest colorings. There are long coats and short coats in old rose and Copenhagen blue, the two shades which are to be most popular for mid-winter and spring wear.

Buying one of these suits shows good, hard common sense, too; for the weight, cut and coloring all make them just right for spring as well as the present.

One of the greatest changes in these suits is the short waisted backs with the DuBarry sleeve. This sleeve is indicative of style as well as beauty and affords the wearer a garment that's graceful and very late in design.

Today Our Stock of Suits Reaches a Climax

There are many ladies in the city of Paducah whom we have promised to call up by phone upon the arrival of these clothes, but, fearing we have lost the list on which their names were written, we use this means of notifying you that we have the suit you desire. This line will be ready for inspection tomorrow morning and whether you have bought your suit or not we gladly welcome you to this feast of good things. Prices on these suits range from \$35 to \$85. Styles on these suits range from the most modest good kind to the style that reigns supreme with the greatest eastern dressers.

Remember, tomorrow is the first showing and make it a point to be with us as early as possible so you will not be too late and miss some of the good styles.

SKATING RINK

WILL BE OPENED TONIGHT FOR FIRST SEASON IN PADUCAH.

Forty Piece Automatic Band Ready to Play Overture—Some of the Arrangements.

Manager E. W. Crumbaugh has personally seen to every detail of arrangements for the opening of Auditorium skating rink, and the grand opening tonight will be an event of much interest. He has secured a fine woman skater to teach girls. She will be on duty from 9 to 11:30 o'clock each morning, and a teacher will be on duty to teach boys from 5 to 7 o'clock p. m. Patrons will be taught free of charge.

This morning the finishing touches to the mechanical military band, 40 pieces, were put and the big band is ready to crash out the opening overture tonight.

Skates are today being inspected and doors will open for regular skating at 7 o'clock. At 7:15 o'clock the overture will be played and at 7:30 the skating will begin.

"The reverse method" employed in skating are put in force for the benefit of patrons," stated Manager

Crumbaugh. "It may handicap some at first, but they will like it better after they become accustomed to it."

Money for South and West.

New York bankers are sending to the west and south all the currency they can spare. The premium on currency, which rose as high as three per cent during the week, has had a serious effect upon exchange and the price of United States bonds. It has disturbed calculations based upon gold parities of exchange and made it possible to pay a higher price to get gold and acquire bonds as a basis for calculation than if no such premium prevailed.

Failures Very Few.

One of the favorable features of the situation thus far is the relatively small number of failures of national banks as compared with 1893. Then 78 national banks suspended in July, 63 in June and August, while during the first eight months of 1893 the suspension of state and private banks was 415. In the present crisis the number of national bank suspensions reported does not exceed a dozen, and some of these will reopen.

The new week opens with the banking situation in New York cleared up, so far as any danger of further failures or suspensions are concerned, with banking reserves comparatively intact, and with more than \$25,000,000 on the ocean to strengthen them.

FATHER MEETS HIS SON AT CITY HALL—NO WORDS.

A country youth about 19 years old had been conspicuous about the city hall since Friday afternoon. He had a small grip and no where to stay. He was permitted to remain about the hall and slept in the warm court room. When applying for lodging at the city hall he informed Captain Frank Harlan that he could find no work and had no friends to go to. This morning a gruff, middle-aged man appeared at the city hall, looked the boy over, stated that he would "take him" as he was his son, and without thanking any one left the hall.

Harbour's Department Store

The store for all thrifty people

It is the store that does sell its merchandise at real cash prices and does give cash on cashier checks.

Notice the blatant inconsistency of most merchants on Cashier's Checks.

Common sense instinctively perceives that a merchant is not selling goods at real cash prices who advertises to take cashier checks at \$1.05 or more in trade when he won't give you even what they call for in real money.

Dear reader, aren't you far more intelligent than such merchants think? Why some merchants prices are so high that they ought to give you even a \$1.25 of their merchandise for a cashier check or any other kind of a dollar.

Next Friday and Saturday, November 15th and 16th

We will give A CLOAK OPENING

EUROPE MUST PAY IN YELLOW GOLD

For Every Bale of Cotton and Car of Wheat Exported

Another Week Downs With Conditions Much Clearer and Situation Even Easier.

ONLY A DOZEN SUSPENSIONS.

New York, Nov. 11.—The most eventful week in the financial history of the present generation closed Saturday with conditions much clearer than the week before, but with some clouds still hanging over the horizon. The bank statement yesterday changed the situation. While it showed a nominal decrease in the required reserves of \$13,085,800, more than two-thirds of this decrease was due to reserve requirements caused by an increase in deposits because of the taking over of loans from trust companies by banks. Moreover, the actual cash loss of \$4,313,000 was due to the system of averaging accounts for the entire week, including several days before the arrival of new gold. Unless the demands from the country are very heavy, the arrival of additional gold will more than offset the loss of cash last week and make a creditable showing for the reserves next Saturday.

Europe Protects Herself.

The restoration of comparative security in New York was obtained only by the demands of the money markets of Europe which created a tension not experienced since the Boer war. The Bank of England raised its discount rate to 7 per cent, a rate which has not been fixed since 1873. The Bank of France raised its rate to 4 per cent, the Bank of Belgium to 6 per cent, the Bank of Germany fixed the usual rate of 7 1/2 per cent.

It is not surprising that these precautions should be taken to protect European bank reserves, in view of the fact that nearly \$50,000,000 in gold has been engaged by American banking institutions within two weeks. The demand for gold from Europe came at a favorable time in some respects for the outward movement of American products of which the leading ones are cotton and wheat. The fact that European banks declined during the summer to accept American finance bills, because they already scented a storm, made the demand upon them more sudden than would have been the case if American bankers had found it necessary to buy cotton and grain bills to cover previous borrowings. Under the actual conditions England must pay substantially in gold for the balance of exported products which are

DuBARRY SUITS

Proclaim the Style for Mid-Winter and Spring

Suits good enough for America's best dressers.

Styles different from any shown by other stores

NOTABLE indeed are the new mid-winter suits which we are constantly receiving now, for they embody the newest and most swagger cut and the latest colorings. There are long coats and short coats in old rose and Copenhagen blue, the two shades which are to be most popular for mid-winter and spring wear.

Buying one of these suits shows good, hard common sense, too; for the weight, cut and coloring all make them just right for spring as well as the present.

One of the greatest changes in these suits is the short waisted backs with the DuBarry sleeve. This sleeve is indicative of style as well as beauty and affords the wearer a garment that's graceful and very late in design.

Today Our Stock of Suits Reaches a Climax

There are many ladies in the city of Paducah whom we have promised to call up by phone upon the arrival of these clothes, but, fearing we have lost the list on which their names were written, we use this means of notifying you that we have the suit you desire. This line will be ready for inspection tomorrow morning and whether you have bought your suit or not we gladly welcome you to this feast of good things. Prices on these suits range from \$35 to \$85. Styles on these suits range from the most modest good kind to the style that reigns supreme with the greatest eastern dressers.

Remember, tomorrow is the first showing and make it a point to be with us as early as possible so you will not be too late and miss some of the good styles.

SKATING RINK

WILL BE OPENED TONIGHT FOR FIRST SEASON IN PADUCAH.

Forty Piece Automatic Band Ready to Play Overture—Some of the Arrangements.

Manager E. W. Crumbaugh has personally seen to every detail of arrangements for the opening of Auditorium skating rink, and the grand opening tonight will be an event of much interest. He has secured a fine woman skater to teach girls. She will be on duty from 9 to 11:30 o'clock each morning, and a teacher will be on duty to teach boys from 5 to 7 o'clock p. m. Patrons will be taught free of charge.

This morning the finishing touches to the mechanical military band, 40 pieces, were put and the big band is ready to crash out the opening overture tonight.

Skates are today being inspected and doors will open for regular skating at 7 o'clock. At 7:15 o'clock the overture will be played and at 7:30 the skating will begin.

"The reverse methods employed in skating are put in force for the benefit of patrons," stated Manager

Money for South and West.

New York bankers are sending to the west and south all the currency they can spare. The premium on currency, which rose as high as three per cent during the week, has had a serious effect upon exchange and the price of United States bonds. It has disturbed calculations based upon gold parities of exchange and made it possible to pay a higher price to get gold and acquire bonds as a basis for calculation than if no such premium prevailed.

Failures Very Few.

One of the favorable features of the situation thus far is the relatively small number of failures of national banks as compared with 1893. Then 78 national banks suspended in July, 63 in June and August, while during the first eight months of 1893 the suspension of state and private banks was 415. In the present crisis the number of national bank suspensions reported does not exceed a dozen, and some of these will reopen.

The new week opens with the banking situation in New York cleared up, so far as any danger of further failures or suspensions are concerned, with banking reserves comparatively intact, and with more than \$25,000,000 on the ocean to strengthen them.

The Evening Sun—10c. a week.

FATHER MEETS HIS SON AT CITY HALL—NO WORDS.

A country youth about 19 years old had been conspicuous about the city hall since Friday afternoon. He had a small grip and no where to stay. He was permitted to remain about the hall and slept in the warm court room. When applying for lodging at the city hall he informed Captain Frank Italian that he could find no work and had no friends to go to. This morning a gruff, middle-aged man appeared at the city hall, looked the boy over, stated that he would "take him" as he was his son, and without thanking any one left the hall.
